C
P 25 H
1909-10

"**H**AVING long been of the opinion that for the usefulness, prosperity and happiness of children, a good moral and intellectual or business education, with moderate means, was far better than large, unlimited wealth, . . . and having long been convinced that the future welfare of our country, the permanence of its institutions, the progress of our divine religion, and an enlightened Christianity, greatly depend upon the general diffusion of education under correct moral and religious influence, and having during my lifetime used, to some small extent, the means given me by my Creator in accordance with these convictions, and being desirous of still endowing objects so worthy as far as in my power lies, I do therefore, . . . give and bequeath the residue of my estate . . . to my said executors and the survivors or survivor of them, in trust, to be by them used and expended in forwarding and endowing an institution of learning in the state of Iowa."

LEWIS B. PARSONS.

College Calendar.

1910.

January.

- 4. Tuesday.—Holiday Vacation Ends.
- 25-28. Tuesday to Friday.—Semester Examinations.

February.

- 1. Tuesday.—Second Semester Begins.
- 10. Thursday.—Day of Prayer for Colleges.
- 22. Tuesday.—Washington's Birthday.
- 24. Thursday.—Founder's Day.
- Mid-Year Meeting of Trustees.

March.

- 7. Monday, 10 a. m.—Examinations for Removal of First Semester Conditions.

May.

- 2. Monday.—Last day for submitting Senior Theses.
- 24. Tuesday.—Senior Vacation Begins.

June.

- 1-6. Wednesday to Monday.—Final Examinations.
- 5. Sunday, 11 a. m.—Baccalaureate Sermon.
 - 4:30 p. m.—Vesper Service.
 - 7:30 p. m.—Address before the Christian Associations.
- 6. Monday, 3 p. m.—Academy Prize Contest.
 - 7 p. m.—Graduating Exercises of the Academy.
 - 7 p.m.—Meeting of Board of Trustees.
 - 8 p. m.—Class Day Exercises.
- 8. Wednesday, 2:30 p. m.—Mason and Kellogg Prize Contests in Oratory.
 - 5 p. m.—Alumni Picnic.
 - 7:30 p. m.—Valedictory Exercises of Literary Societies.
- 9. Thursday, 10 a. m.—Thirty-fifth Annual Commencement.
 - 12 m.—Alumni Dinner.
 - 2 p. m.—Alumni Business Meeting.

September, 1910.

Examinations for removal of conditions.

- 13. Tuesday.—First Semester Begins.
8 a. m.—Registration of new students.
- 14. Wednesday, 8 a. m.—Registration of old students.
- 15. Thursday.—Regular college exercises begin.
10:30 a. m.—First Chapel and Opening Address.

November.

- 18. Friday.—Last day for submitting subjects for Senior Theses.
- 24. Thursday.—Thanksgiving Holiday.

December.

- 22. Thursday.—Christmas Holidays Begin.

1911.

January.

- 5. Thursday.—College Exercises Resume.
- 24-27. Tuesday to Friday.—Mid-Year Examinations.
- 31. Tuesday.—Registration for Second Semester.

February.

- 1. Wednesday.—Regular College Exercises Resume.
- 9. Thursday.—Day of Prayer for Colleges.
- 24. Friday.—Founder's Day.
Mid-Year Meeting of Trustees.

March.

- 6. Monday.—Examinations for removal of first semester conditions.

April.

VISITORS OF THE SYNOD OF IOWA.

REV. J. C. BERGER, Ph. D., Red Oak, Iowa.

REV. E. WINSLOW BROWN, Knoxville, Iowa.

REV. FRANK H. SHEDD, Shenandoah, Iowa.

Faculty.

REV. WILLIS EDWARDS PARSONS, D. D.,

President.

Martha Pettus Parsons Professor of Biblical Literature and Evidences.

A. B., Olivet College, 1881; D. D., *ibid.*, 1902; Princeton Theological Seminary, 1881-4; Pastor Presbyterian Church, Albion, Mich., 1884-93; Pastor, First Presbyterian Church, Danville, Ill., 1893-1904; Parsons College, 1904-.

WILLIAM ALFRED WIRTZ, A. M.,

Professor of Modern Languages.

A. B., Cornell College, 1889; A. M., *ibid.*, 1892; Principal of Schools, Lisbon, Iowa, 1887-9; Graduate Student, University of Chicago, 1897-1901 (summer quarters) Graduate Student, University of Berlin, 1902; Parsons College, 1889-.

JOB EDGAR JOHNSON, A. M.,

Levi Parsons Professor of the Latin Language and Literature.

A. B., Yale University, 1898; A. M., Harvard University, 1899; Graduate Student, Harvard University, 1898-9; Teacher, Brookline (Mass.) High School, 1899; Parsons College, 1899-.

* CORA. D. SMILEY, M. S.,

Professor of the English Language and Literature.

B. S., Parsons College, 1894; M. S., *ibid.*, 1900; Teacher of English, Washington Iowa Academy, 1894-1900; Parsons College, 1900-.

RAPHAEL MONROE McKENZIE, Ph. D.,

Professor of Chemistry and Physics.

B. S., New York University, 1890; M. S., *ibid.*, 1892; Ph. D., Johns Hopkins University, 1896; Demonstrator in Chemical Laboratory and Scientific Fellow, New York University, 1891-2; Instructor in Chemistry, University of Cincinnati, 1897-8; Instructor and Assistant Professor of Chemistry, Stevens Institute of Technology, 1900-3; formerly Member of German Chemical Society; Member of American Chemical Society; Parsons College, 1903-.

*Resigned, January, 1910.

HARRY MOREHOUSE GAGE, A. M.,

Armstrong Professor of Philosophy.

A. B., University of Wooster, 1900; A. M., Columbia University, 1904; Professor of Philosophy, Huron College, 1900-3; University Fellow in Philosophy, Columbia University, 1903-5; Parsons College, 1905-.

WARD WEBSTER SILVER, A. M.,

Professor of Education and History.

A. B., Washburn College, 1896; A. M., Harvard University, 1901; Graduate Student, University of Chicago, 1896-7; Instructor Pendleton (Oregon) Academy, 1897-1900; Graduate Student, Harvard University, 1900-1; Principal, Academy of Washburn College, 1901-6; Holder of Special Scholarship in Education, Harvard University, 1906-7; Parsons College, 1907-.

FREDERICK HUMBERT HODGE, A. M.,

Hunt Professor of Mathematics.

A. B., Boston University, 1894; A. M., *ibid.*, 1899; Special Student, Massachusetts Normal School, Bridgewater, 1894-5; Professor of Mathematics, John B. Stetson University, 1895-6; Graduate Student in Mathematics, University of Chicago, 1896-7; Scholar in Mathematics, Clark University, 1897-8; Fellow, 1898-9, 1901-3; Honorary Fellow 1903-6; Professor of Mathematics and History, Bethel College, 1899-1901; Instructor in Mathematics, Clark College, 1902-5; Assistant Professor, 1905-7; Fellow in Mathematics, University of Chicago, 1907-8; Member of American Mathematical Society; Fellow of the American Association for Advancement of Science; Parsons College, 1908-.

CHARLES CARTER, M. S.,

Ringland Professor of Biology.

B. S., Parsons College, 1894; M. S., *ibid.*, 1897; Teacher of Science in Columbus Junction and Fairfield High Schools, 1894-7; Superintendent, Corydon Public Schools, 1897-1904; Professor, Idaho State Normal School, 1905-8; Parsons College, 1908-.

GEORGE FREDERICK HEFFELBOWER, A. M.,

Acting Professor of Greek.

A. B., University of Michigan, 1897; A. M., *ibid.*, 1898; University Fellow in Latin, Columbia University, 1898-9; Graduate Student, Harvard University, 1900-1; Ecole des Hautes Etudes of the University of Paris, 1901-2; Student in University of Halle, 1905-6; Student in University of Leipzig, 1906; Professor of Greek, Carroll College, 1903-5; Professor of Ancient Classics, Scio College, 1906-8; Instructor in Latin and French, University of Wooster, 1908-9; Acting Professor of Greek, Parsons College, 1909-.

ARLETTA LEORA WARREN, Ph. D.,

Acting Professor of English Language and Literature.

A. B., University of Wooster, 1889; Ph. D., University of Michigan, 1898; Professor of Latin, State Normal School, Madison, S. D., 1903-9.

MARY MUNFORD PATTISON, A. B.,

Instructor in the Academy.

A. B., Tarkio College, 1904; Teacher of English, Assint College (Assint, Egypt), 1905-8; Parsons College, 1908-.

JOSEPH CLARKE PICKEN, A. B.,

Director of Athletics.

A. B., Monmouth College, 1908; Student in University of Chicago, 1908-9; Parsons College, 1909-.

STUDENT ASSISTANTS.

MABEL DUBOIS,

Instructor in Physical Geography.

ROY ERNEST CURRAY,

Assistant in Physics.

WALTER ELLIS WELCH,

Assistant in Biology.

IVAN LESTER POLLOCK,

Assistant in Chemistry.

WILLIAM RALPH PHIPPS,

Assistant in German.

FACULTY OF THE SCHOOL OF MUSIC.

JAMES POLLOCK MOORHEAD,

*Director of the School of Music, and Instructor in Piano, Harmony,
and Musical History.*

Graduate, New England Conservatory of Music, 1901; studied in Leipzig, Germany, 1903-4; Parsons College, 1904-.

* FLORENCE LOUISE AVERY,

Instructor in Piano, and Theory.

Graduate, New England Conservatory of Music, 1901; Graduate Student, *ibid.*, 1901-2; Pupil of Joseffy, summer of 1906; Instructor in Piano, Belhaven College, Jackson, Miss., 1902-3; Parsons College, 1903-.

FLORENCE MARGARET GLENN,

Instructor in Voice.

Graduate, Tarkio Conservatory of Music, 1908; Supervisor's Course, Drake University Conservatory of Music, 1908 (Summer); Parsons College, 1908-.

* On leave of absence. Studying in Leipzig.

MARJORIE KNEELAND,

Instructor in Piano, and Theory.

Graduate, New England Conservatory of Music, 1909; Parsons College, 1909-.

FRED HUNT,

Instructor in Violin.

Pupil of Spiering, 1899-1901; Parsons College, 1901-.

LECTURERS AND OTHER OFFICERS.

JOHN V. BEAN, M. D.,

Lecturer on Sanitary Science.

M. D., Bellevue Hospital Medical College, 1868; Acting Assistant Surgeon, U. S. Army, 1868-70; Member of American Medical Association, 1880; Member of Iowa State Medical Society, 1892; U. S. Examining Surgeon, 1897; Parsons College, 1889-.

WILLIAM G. ROSS, A. M.,

Lecturer on the Constitution of the United States.

A. B., Parsons College, 1880; A. M., *ibid.*, 1883; Parsons College, 1897-.

JAMES FREDERIC CLARKE, A. M., M. D.,

Lecturer on Mycology.

B. S., State University of Iowa, 1886; A. M., *ibid.*, 1889; M. D., University of Pennsylvania, 1889; Graduate Student, University of Goettingen, 1895; Graduate Student, Johns Hopkins University, 1895; Major and Surgeon, 49th Iowa Volunteer Infantry, 1898-9; Member of American Medical Association, 1894; American Public Health Association, 1899; American Association for the Advancement of Science, 1900; Fellow of Iowa Academy of Sciences, 1897; Lecturer on Hygiene, State University of Iowa, 1900-4; Parsons College, 1902-.

JOHN FREDERICK HINKHOUSE, A. M., D. D.,

General Secretary.

A. B., Parsons College, 1883; A. M., *ibid.*, 1886; D. D., *ibid.*, 1906; McCormick Theological Seminary, 1883-6; spent 21 years in Pastoral Work in Iowa Presbyterian Churches; Moderator of Synod of Iowa, 1903; Member of Board of Trustees, Parsons College, 1889-1904; Trustee of Corning Academy, 1893-1904; Trustee of Buena Vista College, 1904-; Parsons College, 1907-.

ELSIE EUGENIA ZICHY, A. B.,

Librarian and Instructor in Public Speaking.

A. B., Parsons College, 1909; Parsons College, 1909-.

MRS. ANNA SCOTT PATTISON,

Matron of Ballard Hall.

JAMES TURNER,

Custodian of Buildings.

W. W. WHITAKER,

Mechanician in Science Laboratories.

STANDING COMMITTEES OF THE FACULTY.

Administration: President Parsons, Professors Wirtz, Gage.

Admission: Professors Wirtz, Silver, McKenzie.

Athletics: Professors Johnson, Hodge, Mr. Picken.

Appointments: Professors Silver, Wirtz.

Catalogue: Professors Gage, Silver, Carter.

Curriculum: Professors Silver, McKenzie, Hodge, Carter.

Debates: Professors Johnson, Hodge, Mr. Picken.

Library: President Parsons, Professors Gage, McKenzie, Heffel-
bower.

Publications: Professors Hodge, Wirtz.

Public Exercises: Professors Silver, Carter, Johnson.

Religious Life and Observances: President Parsons, Professors Gage,
Heffelbower, Miss Pattison.

Schedule: Professors Hodge, Carter.

Scholarships: President Parsons, Professors Gage, Heffelbower.

Historical.

Sketch.

Parsons College stands as a concrete expression of the desire of a Christian business man, Lewis B. Parsons. The wish of its honored founder was to make possible an education, under Christian influences, for the youth of Iowa. Dying twenty years before the College was begun he could only devise and make known his wishes.

At the earliest possible date the sons of Mr. Parsons, who were his executors, sought to carry out the wish of their father. After careful consideration it was decided to accept the offer of a site from Fairfield, and the College was founded February twenty-fourth, 1875.

The following September school was opened as an institution of college rank under the care of the Presbyterians of Iowa. Young men and women were admitted on equal terms.

The first class was graduated in 1880, and numbered sixteen. The Alumni now number three hundred and sixty-five.

On the night of August nineteenth, 1902, Ankeney Hall, the main building, was totally destroyed by fire. This meant the loss of everything which constitutes a college and it looked dark for the future. But out of this loss there has arisen a new and greater Parsons. In place of the one building of the early days there are now eleven, and instead of the three members of the first Faculty there are twenty-five, thus enlarging the scope of the work and assuring the future.

Presidents of Parsons College.

Rev. John Armstrong,	-	-	-	-	-	-	1877-1879
Rev. E. J. Gillette, D. D.,	-	-	-	-	-	-	1879-1880

Rev. Ambrose C. Smith, D. D.,	-	-	-	-	-	-	1889-1896
Rev. Daniel E. Jenkins, D. D., Ph. D.,	-	-	-	-	-	-	1896-1900
Rev. Frederick W. Hinitt, D. D., Ph. D.,	-	-	-	-	-	-	1900-1904
Rev. Willis E. Parsons, D. D.,	-	-	-	-	-	-	1904-

Summary of Events.

The Lewis B. Parsons Will Executed,	-	-	December, 1855
Citizens of Fairfield organized to secure the Parsons Endowment Fund,	-	-	November 24, 1874
Articles of Incorporation signed,	-	-	February 24, 1875
College opened in the Bernhart Henn residence,	-	-	September 8, 1875
Rev. Alex. G. Wilson, A. M., began three years' service as Rector of the Academy,	-	-	1875
Rev. John Armstrong began two years' service as Financial Agent and Professor of Morals,	-	-	1875
Alethean Society organized,	-	-	October 5, 1875
Aldine Society organized,	-	-	October 15, 1875
First College Building and Chapel occupied,	-	-	January, 1876
Department of Music opened,	-	-	September, 1879
Orio Society organized,	-	-	1879
First class graduated,	-	-	June 7, 1880
First edition of The Portfolio,	-	-	December, 1881
Armstrong Professorship founded,	-	-	1882
Corner Stone of New College laid,	-	-	June 2, 1882
Ringland Professorship founded,	-	-	1882
Elzevir Society organized,	-	-	January 19, 1883
Hunt Professorship founded,	-	-	1883
Levi Parsons Professorship founded,	-	-	1892
Ankeney Hall completed,	-	-	January, 1893
Skinner Professorship founded,	-	-	1898
Corner Stone of Ballard Hall laid,	-	-	April 8, 1901
Ankeney Hall destroyed by fire,	-	-	August 19, 1902
Foster Hall opened,	-	-	September 22, 1903
Fairfield Hall opened,	-	-	September 22, 1903
Empyrean Society organized,	-	-	November 19, 1903
Rev. Willis E. Parsons, D. D., inaugurated as President of the College,	-	-	May 30, 1905
Martha Pettus Parsons Professorship founded,	-	-	1907
Alumni Field dedicated,	-	-	June 5, 1907
Library dedicated,	-	-	June 5, 1907
Trustee Gymnasium dedicated,	-	-	June 8, 1909

Buildings and Equipment.

FAIRFIELD HALL (40x86 feet), so named in recognition of the generosity of the citizens of Fairfield in contributing to the building fund, is constructed of pressed brick, trimmed with white brick and stone, and provides commodious quarters for the literary work of both the Collegiate and Academic departments. It contains well-lighted class rooms, chapel, reading room, offices, cloak rooms fitted with lockers, and rooms for the literary societies of the College.

The chapel, equipped with opera chairs, has seating capacity for an audience of two hundred and twenty-five.

The furniture of the class rooms is all of the most approved kind, consisting of tablet chairs fitted with iron pedestals firmly fastened to the floor, excellent blackboards, and special maps as required by the different departments.

FOSTER HALL (69x112 feet), the home of the science department, so named in recognition of the generous gift of Mr. T. D. Foster of Ottumwa toward the building fund, is most complete in all its appointments.

The Department of Chemistry occupies the greater part of the third floor. There is provided on the south side of the building a room for the department library, the private laboratory of the professor, and the lecture room. The lecture room seats seventy pupils, and is furnished with rows of opera chairs, each row raised above the one in front, so that the lecture table may be seen by all students. The lecture table is provided with gas, pneumatic trough, running water, and a suction to carry away any gases which might escape during the experiments. Back of the lecture table is a hood and blackboard with charts for illustrating the lectures.

Adjoining the lecture room on the north are the supply room and the weighing room, where the balances for the students doing quantitative work are kept.

LIBRARY HALL--SEE PAGE 18

The three laboratories are situated on the north side of the building, and provide ample room and the best equipment for work in chemistry. The laboratory for general experimental work and for qualitative analysis is in the middle of the building. It has desk room for thirty-six students; each desk provided with a sink, running water, gas, etc. There are also a large number of hoods where obnoxious gases are carried away from the laboratory. At each end of the general laboratory, separated from it by glass partitions, is a smaller laboratory, each having desks for twenty-four students. One of these laboratories is used by the students in quantitative analysis, and the other by students engaged in making chemical preparations, both in organic and inorganic chemistry. Each student is provided with a locker in the hall, and in every way the arrangements are as complete as possible.

The Biological Department, occupying the second floor, has large and light laboratories. The principal one of these is that for the use of the class in general biology. This room is at the east end of the building and has accommodations for thirty pupils. It is splendidly lighted by ten large windows. Tables at which two pupils can work are so placed that the light for microscopes cannot be obscured. There are gas connections for each table, and a full set of preserving and staining reagents is provided for each pupil. The microscopes are Bausch and Lomb's B. II., equipped with 2-3 and 1-6 objectives and Nos. 1 and 2 oculars.

The lecture room is in the southwest corner. It is seated with tablet-arm opera chairs. There is a demonstration desk with gas and water attachments for lecture purposes, and a complete projection apparatus has been installed. The department library adjoins the lecture room and is amply furnished with reading tables, chairs, etc.

At the south end is the laboratory for animal morphology, in which provision is made for work in dissection, injection, and all work of like nature. The laboratories for histology, bacteriology, and physiology occupy the north side of the building, and there are also rooms for incubators and for photographic work.

The biological and geological specimens will be placed in museum cases that are built around the large entrance hall.

The Physical Department occupies the greater part of the first floor of Foster Hall. The west end of the floor is occupied by the electrical laboratory and the general physical laboratory, which accommodates twenty-five students. Adjoining the physical laboratory is the optical laboratory. This can be made perfectly dark, and is provided with gas and electric lights as well as direct electric current for photometric measurements.

The engine room and metal workshop adjoin the electrical laboratory, supplying power to the latter. At the east end of the building are the carpenter shop and the physical lecture room which seats seventy students. The lecture table is provided with gas, sink, water, and a direct electric current of from 2-35 volts and up to 20 amperes. The room is also provided with opaque shades, screen, and projection lantern. Opening from this is the physical apparatus room, which is fitted with glass cases for the apparatus.

The equipment is new and complete, including such pieces as balances, cathetometers, dynamos for direct and alternating current, storage batteries, standard meters, transformers, spectro-scope, etc.

The Department of Psychology occupies two rooms at the southwest corner of the third floor. One is a recitation and lecture room, and the other is the psychological laboratory. The laboratory already has a dark room and other apparatus is being secured.

LIBRARY (35x90 feet). This building, the gift of Andrew Carnegie and Thomas D. Foster, is constructed of wine-colored brick with Bedford stone trimmings, and tile roof. The interior is beautifully finished in Flemish oak, with furniture to correspond. The fire-proof stack room has ample capacity for 25,000 volumes. The remainder of the first floor is given over to the general reading room, the Librarian's room, and the reference alcove. The second floor contains the President's offices, a large room for Faculty and Board meetings, and fire-proof vault.

This part of the equipment of Parsons has had a steady growth during the past seven years. With but three volumes left by the fire of August, 1902, it has increased to over seven thousand usable and used books. Accessions are made to meet the needs of the departments. The dictionary catalogue and shelf list are being

brought up to date as rapidly as possible. Effort is being made to increase the efficiency of the reference department. To this end two hundred and sixty-nine volumes of magazines have recently been bound.

The Library regularly receives the following periodicals:

American Political Science Review.	Musical Courier. Nation.
Assembly Herald.	National Geographic Magazine.
Advocate of Peace.	North American Review.
American Economist.	Our Dumb Animals.
American Magazine.	Outlook.
Annals of Mathematics.	Photo-era.
Bookman.	Popular Astronomy.
Camera Craft.	Popular Mechanics.
Century.	Popular Science Monthly.
Cosmopolitan.	Psychological Review.
Dial.	Presbyterian Banner.
Educational Review.	School Science and Mathematics.
Harper's Monthly.	Science.
History Teachers' Magazine.	School Review.
Independent.	Scientific American.
Inter-Ocean.	Success.
Journal of Educational Psychology.	World's Work.
Journal of Political Economy.	Herald and Presbyter.
Living Church.	Interior.
McClure's Magazine.	The Des Moines Capital.
Missionary Review.	Fairfield Ledger.
Modern Language Notes.	Fairfield Tribune.
	Ottumwa Courier.

BALLARD HALL (40x90), the young ladies' dormitory, is designed in a modernized colonial style. It is a three-story building constructed of vitrified brick with light trimmings, at an outlay of over \$17,000. The interior is arranged on a novel plan. The dining-room is a semi-basement apartment not below the outside ground level. The parlor floor is elevated about four feet above the dining-room floor, and is connected by open screen-work and free columns with a mezzanine story containing a large hall, the dean's office, the housekeeper's rooms, and four other

rooms. One end of this hall terminates in a large art glass window, opening upon a semi-circular balcony. The other end terminates in an interior bay window effect, with seat, partition and screen. The parlor is a room 37 feet and 6 inches long by 29 feet wide, divided into six alcoves by four free columns and four partitions the height of the wainscoting. Across the end of one of these alcoves there is a large brick fireplace and mantelpiece. There are seats built into the alcoves and corners, and the whole is arranged so that the parlor and hall may be used as one large room for receptions and other festive occasions, and still be cozy and homelike for every-day use.

The second story is divided into ten apartments, besides a large toilet and bath room. Each apartment furnishes study-room facilities for two students, and contains two alcoves. Each of these alcoves is supplied with a single bed and a wardrobe. The third story contains music rooms and other apartments. The rooms are lighted by both gas and electricity, and heated by steam.

GYMNASIUM (98x70 feet). This building, the latest addition to our equipment, erected at a cost in excess of \$21,000, is known as Trustee Gymnasium, in recognition of the generous contributions of the Board of Trustees. The architecture is Romanesque, special attention being given to the treatment of the outside walls, which present a very artistic appearance. The exterior of the wall has a dry-pressed, chocolate-colored face brick, relieved by profuse Bedford stone trimmings and galvanized iron cornices. The roof is slate and composition.

A solid brick wall divides the basement floor into two compartments, one for men and one for women. Each compartment is provided with a measuring room, locker rooms, and eleven shower baths. In order to insure the best sanitary conditions, special care has been taken to secure well ventilated lockers, a good cement floor, and perfect plumbing and drainage.

The main floor of the building contains two office rooms, an apparatus room, and the large exercise and drill hall. The roof being supported by trusses, this hall presents a free floor space ninety-five feet long and fifty feet wide. The floor is hard maple. Nine feet above the floor on the exterior wall is a running track. On a level with the track and above the offices are two trophy rooms. A special feature of the main room is a stage, raised above the level

of the floor and built above the rear porch of the building. At the front of the stage is a proscenium arch. At the side of the stage are cupboards and sinks. These arrangements make it possible to use the room for banquets and entertainments, and as an auditorium. By using the track as a gallery one thousand people can be seated in view of the stage.

The interior wood finish of the building is natural oak. The interior walls are white brick, with a chocolate-colored brick wainscoting.

PROFESSORS' HOUSES. On the campus are three brick houses with all modern improvements. One of these houses is occupied by the President. The other two, recently erected by the College, are occupied by two of the professors and their families. Immediately adjoining the campus is another modern residence which is owned by the College and occupied by one of the professors.

CENTRAL HEATING PLANT. All College buildings are heated from the central plant. It provides space for two boilers of one hundred and twenty-five horse power each. Besides the boiler room and coal bins, the plant contains two rooms for the use of janitors.

General Information.

Aim.

As seen in the historical statements on page 14, the aim of the College is to afford students of both sexes the advantages of a liberal education in the Arts, Sciences, and Philosophy. Its courses of study and methods of instruction are adapted to secure accurate scholarship and thorough discipline. It aims not only to fit its students for professional study and practical life, but also to form the character by a broad Christian culture. This it seeks to attain by direct Biblical instruction, in the class-room, and by the Christian spirit which pervades all the work of the College.

Location.

The city of Fairfield is one of the most delightful in the state. It is situated at the crossing of the Chicago, Burlington & Quincy and the Chicago, Rock Island & Pacific railroads, and is easy of access from all points. The place is healthful, the society congenial, cultured and Christian. Many families have removed to Fairfield to secure for their children the advantages of the College, a plan which it is hoped many others may follow.

Fairfield Free Public Library.

This library offers excellent facilities, free of expense, to the students of Parsons College. It contains a valuable collection of 20,000 volumes, in all departments of literature. Its museum contains about 20,000 specimens, and is especially rich in the departments of zoology and ethnology. Additions are continually being made both to the library and museum.

Through the munificence of Mr. Andrew Carnegie, a fire-proof building, complete in all its appointments and a model of architectural beauty, was erected in 1892, at an expense of \$40,000.

Religious Exercises.

Daily religious services, at which all students are required to be present, are held in the College Chapel, under the direction of the Faculty.

Every student is required to select some church in the city, and to attend its services at least once on the Sabbath. Students are also expected to attend the Vesper services held in the College Chapel on Sabbath afternoon.

Religious Organizations.

There are two College Christian Associations, one for the young men, and the other for the young women. Under the direction of the Associations, a large part of the religious work among the students is carried on. They are well organized, and have a large membership from all classes. The meetings are a very important feature of college life.

Y. M. C. A.

The Young Men's Christian Association of the College, in addition to the regular weekly prayer-meeting, conducts classes for the systematic study of the Bible, and of missions. The student is guided by outlines published by the International Committee. The Association is annually represented at the Lake Geneva Conference by several delegates.

Y. W. C. A.

The young ladies of the College are annually organized into circles for systematic Bible and mission study. The students are guided in their work by a suitable outline of study chosen from among those recommended at the Lake Geneva Conference. In addition to these meetings, a prayer-meeting is held every Tuesday evening. In connection with the Y. M. C. A., a monthly meeting is held for the study of missions and missionary subjects.

Literary Societies.

There are four literary societies in the College, conducted by the students under the general regulation of the Faculty. These are Aldine, Orio, Elzevir and Emyrean. They present opportunities for improvement in writing and extemporaneous speaking and in parliamentary practice. Annual prize contests in declamation, debate, oratory, and essay-writing are held in each of these societies. These contests furnish a stimulus to excellence in literary work.

Physical Training and Athletics.

The college authorities encourage physical training as acquired in the exercises and contests of the athletic field. The direction of Athletics is now vested in the Board of Athletic Control, consisting of three faculty members, two alumni members, and one student member. This board maintains the usual ball, tennis, and track teams. The enlarged athletic field is now fitted out with a quarter-mile cinder track, enclosing a gridiron and diamond of the most approved pattern. The College permits and favors inter-collegiate contests. The Director of Athletics organizes classes in physical training and supervises all athletic games.

High School Athletic Meet.

In order to stimulate a general interest in clean amateur athletics, the College has arranged a Field and Track Meet for the High Schools of Southeastern Iowa. A trophy cup has been offered to the winner. Any High School winning the Meet for two consecutive years, becomes the permanent possessor of the cup. In 1908 the Seymour High School was declared the winner of the Meet. In 1909 the Fairfield High School won.

As the Meet has proven itself to be of general interest it has become an annual event of the College Athletic year.

State Teachers' Certificates.

On Application to the State Examining Board, graduates of Parsons College may receive a five-year first grade certificate if certain work prescribed by the Board has been included in the course pursued by the applicant. This prescribed work consists of twenty semester hours, as follows: Psychology, six hours; Education, fourteen hours.

Recitations and Examinations.

Students will be admitted at any time and assigned to the classes for which they may be prepared, but it is very important and desirable that they enter at the beginning of a semester.

No college exercises are held Monday. The closing days of each semester are devoted to examinations on the work of the semester.

Admission to classes is by cards. These are granted by the class officers to each student when he presents a receipt from the treas-

urer for the semester's bills. No student will be enrolled in any class until he has presented his card for that class to the instructor.

Reports and Grades.

The record of each student is sent to his father or guardian at the end of each semester, and failure to receive such a report should be at once communicated to the Registrar of the Faculty. In the report "A" indicates work of the highest rank (grades 100-90); "B" that of the next lower rank (89-80), etc. "D" indicates work of the lowest rank for which credit is allowed (grades 69-60). "E" and "F" indicate **failure** (grade below 60), and no credit is allowed for work falling into these ranks; but "E" is changed into "D" when the student attains at least "C" in the same subject in the following semester.

Honors in All Studies.

In order to encourage students to excel in all studies of the College course the following system of Honors has been adopted to become effective at the beginning of the year 1908-9.

A student whose average for the eight semesters of his or her college course shall not fall below 95 per cent. (=A+) shall be entitled to the Baccalaureate degree *Summa cum laude*; for an average of 93 per cent. (=A) and not above 95 per cent., *Magna cum laude*; and for an average of 90 per cent. (=A—), *Cum laude*.

Graduation.

A detailed statement of the requirements for graduation is made on page 37. A general statement is that the work of the College is a course requiring four years of residence (except for those admitted to advanced standing) leading to the Bachelor's degree in Arts, Science, or Philosophy, according as the student does major work in one or another of these fields. Regular work for each student is four approved courses and Bible each semester. The number of semester hours for graduation will be found to vary in individual cases from 120 to 128.

Second Degrees.

The College confers the degrees of Master of Arts and Master of Science upon graduates who have previously taken a baccalaureate

degree in this College. Candidates who wish to be recommended for either of these advanced degrees must pursue an approved course of study equivalent to the work of one year of graduate study in the College, must present satisfactory thesis, and pass successfully all required examinations. For more detailed information apply to the Secretary of the Faculty.

The Master's degree is only conferred in recognition of work done in residence.

Prizes.

The following prizes are awarded in the College:

1. The Kellogg Prizes, first and second, of twenty and ten dollars, respectively, given by Mr. R. D. Kellogg, Kansas City, Missouri, to the two members of the Junior class who shall write and deliver in the best manner an English oration.

2. The Mason Prizes of fifteen and five dollars, respectively, given by Mr. Fred D. Mason, Lincoln, Nebraska, to the two members of the Freshman class who shall write and deliver in the best manner an English oration.

3. The Foster Prize of twenty-five dollars, given by Mr. T. D. Foster, Ottumwa, Iowa, for excellence in debate.

4. The Horatio Millard Newcomb Prize of fifteen dollars, given by Rev. Ezra B. Newcomb, D. D., Keokuk, Iowa, to that member of the Senior class who shall attain high rank in the Biblical studies of the Junior and Senior years, and who shall present the best essay on some assigned Biblical subject.

5. The Brockman Prize of fifteen dollars, given by Dr. D. C. Brockman, Ottumwa, Iowa, to that member of the Senior class who shall attain high rank in Political Economy, and who shall present the best thesis on some assigned topic on that subject.

6. The Aldine Alumni Endowment Fund Association's Prizes in Oratory, first and second, of fifteen and eight volumes of books, respectively, given by the Association to the two Sophomore members of the Aldine Literary Society who shall excel in an oratorical contest.

7. The Orio Prizes in Oratory, a gold medal, given by the Orio Literary Society to that one of its Sophomore members who shall excel in an oratorical contest.

8. The Elzevir Prize in Oratory, a set of valuable books, given by the Elzevir Literary Society to that one of its Sophomore members who shall excel in an oratorical contest.

9. The Aldine Alumni Endowment Fund Association's Prizes in Debate, first and second, of fifteen and eight volumes of books, respectively, given by this Association to the two Freshman members of the Aldine Literary Society who shall excel in a contest in debate.

10. The Orio Prize in Debate, a gold medal, given by the Orio Literary Society to that one of its Freshman members who shall excel in a contest in debate.

11. The Elzevir Prize in Essay-Writing, a set of valuable books, given by the Elzevir Literary Society to that one of its Freshman members who shall excel in a contest in essay-writing.

12. A friend of the College offers an Oxford Bible to any College student who memorizes certain prescribed passages from the Scripture.

Expenses.

The annual charge for tuition is forty dollars. Of this amount twenty dollars are payable on the opening day of the first semester, and twenty dollars on the opening day of the second semester.

A reduction of fifty per cent. from the regular rate of tuition will be made to the sons and daughters of ministers and missionaries.

An incidental fee of five dollars per semester is charged all students.

The following fees are charged all students taking laboratory work in the subjects named to cover the cost of material used:

Biology, all courses	\$3 per semester
Chemistry, course 1-2	\$3 per semester
Chemistry, advanced courses	\$3 per semester
Physics, all courses in the College	\$3 per semester
Physics, course in the Academy	\$2 per semester

A deposit of one dollar per year is required of each student, to constitute a damage fund, out of which the College property damaged by the students, when the author is unknown, is repaired. At the end of the year the balance is refunded. By this means

the property is kept in good condition, and the amount deducted from each deposit has hitherto been very small.

A fee of one dollar is charged for each registration made two days after the commencement of a semester, or later.

In case of absence from work for half a semester, occasioned by sickness or other unavoidable cause, one-half the tuition for the semester will be refunded. *This applies to tuition only.*

Special students whose work does not exceed ten recitation hours per week will be granted a reduction of \$5.00 from the full rate of tuition; and if the work does not exceed five recitation hours per week a reduction of \$10.00 will be allowed.

A fee of \$5.00 is required of each student before graduation from College. This is to be paid the President the Saturday preceding Commencement.

Young ladies from a distance are expected to take up their residence in Ballard Hall. The rooms are well furnished with needed articles, save those that are personal. Each student should provide the following articles: A napkin ring; towels; sheets, size three-quarters; pillow slips, size 22x27 inches, and such other bedding as she may wish. If curtains for the windows, or rugs for the floors are desired, they should be brought by the student. The matron of the dormitory sees to the washing of sheets and pillow slips, but each student must provide for her personal washing. All personal property should be marked with the owner's name very plainly.

There are three grades of rooms varying in size and location. The charges for these per semester including board will be: For the lowest grade, \$70.00; for the intermediate grade, \$75.00; and for the highest grade, \$80.00. To secure the reservation of a room previous to the opening of a semester, a deposit of five dollars is required.

All dormitory bills must be paid as follows: One half at the opening of the semester, and the other half at the middle of the semester. No reduction will be made except in case of prolonged sickness. Meals served in rooms will be charged extra at the rate of 25 cents per meal. The young men and others who take their meals at the refectory will be required to pay at the beginning and middle of the semester. Day boarders will be charged \$3.00 per

week. No reduction will be made except in case of prolonged sickness.

Board for young men, including room, fuel, and light, is provided in pleasant homes at prices varying from four to five dollars per week; board in private families, at three to four dollars per week. Furnished rooms, suitable for two students, can be rented in the town at prices ranging from seventy-five cents to two dollars per week. The Faculty will render assistance, when desired, in finding suitable boarding places for students.

Every young person of good moral character, who is bent on gaining a liberal education, and who is willing to make the necessary sacrifice, and to practice corresponding economy, will always find sympathy and encouragement in Parsons College.

The entire annual expenses of a student, traveling expenses not included, need not exceed \$250; and students using economy can reduce the annual expense considerably below the moderate estimate in the following summary:

	Moderate		Liberal
Tuition	\$ 40.00		\$ 40.00
Incidental fee	10.00		10.00
Room	27.00	to	72.00
Fuel	4.00	to	6.00
Board	108.00	to	144.00
Incidentals (including washing, books, etc.)..	40.00	to	60.00
Total for the year	\$229.00		\$332.00

SCHOLARSHIPS.

Scholarships are of three classes, as follows: Freshman Honor Scholarships, Horace Silliman Scholarship, Student Aid and Service Scholarships. A full scholarship in any of these classes covers the forty dollar tuition charge, but in no case includes the charge for incidentals, which is five dollars per semester.

FRESHMAN HONOR SCHOLARSHIPS.

Any student, graduating with highest rank from any fully accredited High School in Iowa, is entitled to a Scholarship covering tuition charges for one year.

HORACE SILLIMAN SCHOLARSHIP.

Horace Silliman, LL. D., of Cohoes, N. Y., has given \$1,000 to found a Scholarship, which is awarded to that member of the Junior class who has maintained the highest rank in his Freshman and Sophomore years.

STUDENT AID AND SERVICE SCHOLARSHIPS.

These scholarships are limited in number. Their purpose is to aid needy and worthy students who are able to meet the requirements of good scholarship, high personal character, exemplary conduct and habits of economy in the use of both time and money.

Every holder of a scholarship may be called upon to render the College some service. Such service shall not require more than five hours a week.

A full scholarship is forty dollars a year. The amount assigned to any one student will depend on the need and merit of the applicant and on the amount of funds at the disposal of the Scholarship Committee.

No scholarships are given to students who are conditioned in any subject.

A scholarship, withdrawn because of failure in any study, may be restored after the lapse of half a year, if former deficiencies have been made good and no new ones incurred.

In awarding scholarships preference is given to regular candidates for a degree, and to those who expect to finish their course in Parsons College.

Applications for scholarships must be made on the blank forms provided by the Scholarship Committee.

Students of the College should make out their applications in June or December of each year. Prospective students should file their applications as early as possible, accompanied by the testimonials indicated in the blank forms.

Communications concerning scholarships should be addressed to The President.

The following scholarships have been endowed in whole or in part and are administered as Student Aid and Service Scholarships described above:

The Jonathan Cable Scholarship (memorial), founded by Sarah E. Cable, Danville, Iowa.

The John A. Colwell Scholarship, founded by John A. Colwell, Kittanning, Pennsylvania.

The John A. Swan Scholarship, number one, founded by John A. Swan, Morning Sun, Iowa.

The John A. Swan Scholarship, number two, founded by John A. Swan, Morning Sun, Iowa.

The McClure Scholarship, founded by Mr. and Mrs. I. N. McClure, Mediapolis, Iowa.

The Ida B. and Ella May King Scholarship (memorial), founded by Mr. and Mrs. Z. N. King, St. Paul, Minnesota.

The James G. Wilson Scholarship, founded by James G. Wilson, Streator, Illinois.

The Mary Drew Miller Scholarship, founded by Mary Drew Miller, Carlsbad, New Mexico.

The Spencer Grennell Scholarship (memorial), founded by Mrs. Eunice J. Grennell, Keokuk, Iowa.

The S. Breckenridge Scholarship, founded by Mr. S. Breckenridge, Pella, Iowa.

The Henry Corwith Scholarship (memorial), founded by Messrs. John and Frank Corwith, Chicago, Illinois.

The D. T. Newcomb Scholarship of \$2,000, founded by the late Patience V. Newcomb, Davenport, Iowa.

The Viele Scholarship of \$2,000, founded by the late Patience V. Newcomb, Davenport, Iowa.

The Westminster Scholarship, founded by the Westminster Presbyterian Church, Keokuk, Iowa.

Terms of Admission.

Students are admitted to Parsons College by examination at the College or on presentation of acceptable certificates of work done elsewhere. Those who present certificates are admitted to provisional standing only, the right being reserved to withdraw, at the end of six weeks, credit for any work which the College record of the student shows to have been unsatisfactorily performed. Certificates must show in detail the amount and character of work done in each subject and should be made out on blanks furnished by the College or on those of the North Central Association of Colleges and Secondary Schools.

In estimating preparatory work, a semester credit represents one study pursued not less than 18 weeks with daily recitations. A year of high school work of four studies a day, therefore, equals 8 semester credits and a full high school course should regularly represent 32.

For unconditional admission to the Freshman class, 30 acceptable semester credits are required. Students may be admitted to conditional Freshman standing who present not less than 28 semester credits.

The Academy presents every possible facility for completing deficient College preparation.

The specific requirements for admission are arranged in two groups. Every candidate for unconditional admission must offer all the subjects of Group I, amounting to 19 credits, and enough from Group II to make up the total of 30 credits. The following table shows the contents of the two groups. The ground to be covered in each subject is stated below.

Group I—Required of All.

English	6 credits
Foreign Language (all of which must be in one language),	4 credits
Mathematics 1, 2, 3, 4, 6, ...	5 credits
History, 1, 2, ...	2 credits
Physics, 1, 2, ...	2 credits

19 credits

BALLARD HALL--SEE PAGE 10

Group II—Elective.

Any of the subjects described below, not offered by the student under Group I, may be offered as electives to make up the total of 30 credits for admission. Other subjects will be accepted only by special vote of the Faculty.

Students who expect to choose their College Major in Greek, Latin, or German, should offer for admission, respectively, 4 credits in Greek, 8 credits in Latin, or 4 credits in German; for, although College classes are maintained in which students who have not taken the work may make up Greek or German, no work of the elementary grade just indicated is allowed to count toward a Major. Students whose preparatory work in Latin has not included both 5-6 and 7-8 will be allowed to enter Freshman Latin on probation if they offer 1-4 with either 5-6 or 7-8.

English. 1-6. The requirement in English is in four divisions, for which a total of 6 credits is given. (a) Grammar. (b) Reading: The reading of ten books as prescribed by the North Central Association and the careful study of Shakespeare's *Macbeth*, Milton's *Minor Poems*, Burke's *Speech on Conciliation*, Macaulay's *Life of Johnson*, or equivalents. (c) Composition: Regular and persistent training in both oral and written composition. (d) Rhetoric: The essential principles of rhetoric studied preferably in connection with the work in composition.

7-8. A fourth year of English may be offered if of acceptable character.

Mathematics. 1-2. Algebra: The four fundamental operations, factoring, highest common factor and least common multiple, fractions, equations of the first degree containing one or more unknown quantities, radicals, involution and evolution.

3-4. Plane Geometry: Including the solution of original exercises.

5. Solid Geometry.

6. Advanced Algebra: Quadratic equations, theory of exponents, progressions, the binomial theorem. The use of the graph is desirable.

7. Plane Trigonometry: The six fundamental functions and

their relation, the standard formulas, the solution of plane triangles, practical applications to measurements of areas and heights.

8. Advanced Arithmetic.

9. Double Entry Bookkeeping.

Latin. 1-2. Latin Lessons: Grammar and easy reading.

3-4. Caesar: Books I-IV, or two books and an equivalent of two more in selections from other prose writers such as Nepos.

5-6. Cicero: Six orations, preferably the four against Catiline, Archias and the Manilian Law.

7-8. Vergil: The first six books of the Aeneid.

Composition should accompany the work named above in each year.

Greek. 1-2. Beginning Greek: Grammar and easy reading, Xenophon's Anabasis, Book I, writing Greek.

3-4. Xenophon's Anabasis, Books II-IV.

Composition and Hellenica, I-II, or equivalent.

German. 1-2. Beginning German: Rudiments of grammar, easy exercises, the reading of 50 to 100 pages of graduated text.

3-4. Second Year German: The reading of 150 to 200 pages of easy stories and plays, continued drill on essentials of grammar.

History. 1-2. Ancient History with special reference to the history of Greece and Rome, but including also a study of the other ancient nations, and of the chief events of early mediaeval history down to the time of Charlemagne.

5-6. English History.

7-8. American History or American History and Civil Government.

Physics. 1-2. Elementary work consisting of text book, lecture demonstration, and laboratory practice. The laboratory work should constitute not less than one-fourth of the whole course.

Chemistry. 1-2. Elementary Chemistry.

Zoology. 1-2. Elementary Zoology. Not less than half the time of the class should be spent in laboratory work. If less than 32

weeks with suitable laboratory work is given to the subject it will receive not to exceed 1 credit.

Physiology. 1. Human Physiology.

Botany. 1-2. Elementary Botany. Not less than half the time of the class should be spent in laboratory work. If less than 32 weeks with suitable laboratory work is given to the subject it will receive not to exceed 1 credit.

The College Course.

The departments of instruction in the College are arranged in the following groups:

I. Language and Literature.

II. Philosophy, History, and the Social Sciences.

III. Mathematics and the Physical and Natural Sciences.

I	II	III
English	Philosophy	Physics
Greek	Education	Chemistry
Latin	Political Science	Biology
German	Social Science	Geology
French	Biblical Literature	Mathematics
	History	Astronomy

The work a student offers in satisfaction of the requirements for graduation must be chosen from these groups and must be so arranged that within the first two years he shall have taken work in each of these general fields, and before the close of the course he shall have done work of advanced grade in some chosen department. To secure this result the following regulations have been devised:

Each candidate for a bachelor's degree is required to complete a course, consisting of a minimum of 120 semester hours, in addition to physical culture, carrying regularly four studies and Bible throughout a course of four years. Less than four studies and Bible will be allowed only by special vote of the Faculty. Class officers may grant five courses and Bible to students who receive no grade below "B" the preceding semester, or whose grades would average 85, with not more than one grade below "B," and no grade below "C."

The semester hour consists of one recitation, lecture or laboratory period a week for one semester. Thus, a course which meets three times a week is reckoned three semester hours for a semester, six for a year.

The following specific requirements are made of all students:

Freshman Mathematics.

Freshman English.

One hour of Bible throughout the College course.

One year of History before the Junior year.

One year of Laboratory Science before the Junior year.

Two semesters' work in Philosophy.

Two years of either French or German (or German 1-2) at some time before graduation (may be offered for admission).

Freshmen and Sophomores. The student must so arrange his work that by the close of the Sophomore year he shall have taken at least twelve semester hours in the studies of each of the above groups. In meeting this requirement, however, English is counted as in Group II, and not in Group I.

Juniors and Seniors. The student must so arrange his work in the Junior and Senior years that at graduation he shall be able to present a Major (consisting of not less than six semesters' work) in some department or approved combination of departments, the work to be of a grade of advancement acceptable to each department as Major work. A statement of such courses as are regarded as too elementary to count toward a Major will be found under the description of work in the various departments which offer such courses.

DEGREES.

The Bachelor's Degree will be granted to students who conform to the requirements stated in the preceding paragraph, A. B. being granted to those whose Major is in the studies of the first group; S. B. to those whose Major is in Physics, Chemistry, or Biology; and Ph. B. to those whose Major is in other departments.

In brief summary, each candidate for the Bachelor's Degree must complete a four years' course, each year carrying four studies and Bible, the whole amounting to a minimum of 120 hours, taking certain prescribed courses as stated above. Within the first two years he must take at least twelve hours in each group, and by graduation complete a Major (6 semester courses) in some one department.

Departments of Instruction.

ASTRONOMY.

PROFESSOR HODGE.

1 and 2. General Course.

This is mainly a course in Descriptive Astronomy. It aims to supply a general knowledge of the more important facts and underlying principles of Astronomy, and some acquaintance with the methods of arriving at the facts. Recitations are supplemented by observations of the heavens and studies in the location of the principal stars and constellations. Open to Juniors and Seniors.

Text-book: Moulton's Introduction to Astronomy.

Three hours weekly, throughout the year.

BIBLE.

PRESIDENT PARSONS.

1 and 2. Old Testament.

This course is intended to bring out the Divine purpose as revealed in the early life of the race and more especially in the history and development of the Hebrew nation. There will be a careful study of the promises of the Messiah and the expectation of the Israelites concerning Him. The period between the Old and New Testaments will be reviewed. Required of Freshmen.

One hour weekly, throughout the year.

3 and 4. New Testament.

The purpose of this course is to bring vividly before the student the Life of Jesus as the promised One. To study the wonderful blending of the Divine and human in his person, and to so grasp the purpose of His life as to come into sympathetic co-operation with Him in His plans. Required of Sophomores.

One hour weekly, throughout the year.

5. Apostolic History.

During this semester the work of the Holy Spirit will be studied as revealed in the organization of the Church, the training and dispersion of the Apostles and the development of the truth. This brings in the early life and work of Paul, with the growth of the Missionary idea. Required of Juniors.

One hour weekly, first semester.

6. Organized Christianity.

This course consists of a careful study of the life of the Apostle Paul, as recorded in the later portions of the book of Acts and the Epistles. The aim will be to trace the gradual crystalizing of Divine truth under the guidance of his master mind. Required of Juniors.

One hour weekly, second semester.

7. Comparative Religion.

The aim of this course is to secure a knowledge of the ethnic religions and then by comparison with the true Religion to discover the transcendent beauty and value of Christianity. Required of Seniors.

One hour weekly, first semester.

8. Christian Evidences.

A study of the reasonableness of the Christian religion as shown by the evidences at command. What Christianity is and does in comparison with other systems; the refutation of skeptical objections; the authenticity and genuineness of the Gospels, and the evidence of Christian experience are investigated. Required of Seniors.

One hour weekly, second semester.

9. Christian Missions.

This course is intended for those who have taken the earlier courses and who desire to follow the progress of Christianity as the Church has carried out the commission of Christ.

One hour weekly, first semester.

BIOLOGY.

PROFESSOR CARTER.

STUDENT ASSISTANT, WALTER ELLIS WELCH.

1 and 2. General Biology.

Introduction to both Botany and Zoology, and required as a preliminary to all advanced work in either department. Representative types of the different classes of animals and plants will be studied in the laboratory, beginning with the single-celled organisms, and ending with the complex forms. Laboratory work and lectures.

Reference-books: Parker's Elementary Biology. Galloway.

Four hours weekly, throughout the year.

4. General Botany.

Text-books. Atkinson's College Botany. Gray's Manual.

Three hours weekly, second semester.

5 and 6. Vertebrate Anatomy.

This course includes the careful dissection of several typical vertebrates, including the fish, the pigeon, and the cat. Eight hours of laboratory work each week.

Three hours weekly, throughout the year.

7. Bacteriology.

A general course in the study of bacteria. The preparation of culture media, the growth of typical forms, and their microscopic study.

Lectures and laboratory work.

Text-book: Jordan.

Three hours weekly, first semester.

CHEMISTRY.

PROFESSOR MCKENZIE.

STUDENT ASSISTANT, IVAN POLLOCK.

Chemistry 1 and 2. Elementary Inorganic Chemistry.

This course covers the general field of Elementary Chemistry. The subject is presented by lectures with illustrated experiments

and by recitations. The students are required to perform most of the experiments in the laboratory, keeping notes on their work.

1. During the first semester the fundamental principles of the theory of Chemistry and the properties and reactions of the non-metallic elements and their simpler compounds are studied.

2. The work of the second semester includes a study of the properties and methods of preparation of the common metals and their simpler compounds. Work in photography, electrolysis and with the spectroscope is also included.

Text-books: McPherson and Henderson's Elementary Study of Chemistry, and Exercises in Chemistry.

Four hours weekly, throughout the year.

3 and 4. Advanced Inorganic Chemistry and Qualitative Analysis.

This course is designed to give a thorough knowledge of Inorganic Chemistry. The subject is presented by lectures and recitations, with laboratory work and assigned readings. Some quantitative experiments on the combining relations of the elements and compounds are made, followed by work in qualitative analysis.

Open to students who have completed course 1 and 2. A knowledge of Physics at least equal to that given in Physics A-B is required.

Text-books: Alexander Smith's General Chemistry for Colleges; Bailey and Cady's Qualitative Analysis.

Course 3-4 given in 1909-10.

Three hours weekly, throughout the year.

5 and 6. Organic Chemistry.

This course gives a general survey of the simpler compounds of carbon, their structure and chemical behavior. It familiarizes the students with the methods of work in the organic laboratory in the preparation and study of the physical and chemical properties of organic compounds. It gives the facts and shows how the theories which have led to the modern conception of Chemistry were developed.

Text-books: Ira Remsen's Organic Chemistry, W. R. Orndorff's A Laboratory Manual. References will be assigned to other standard works.

Will be given in 1910-11.

Three hours weekly, throughout the year.

Course 7 and 8. Quantitative Analysis.

The laboratory work gives the student a practical acquaintance with exact quantitative methods. Readings will be assigned on related topics. The course is open to those who have completed course 1-2. It may be taken the same year with 3-4, or 5-6.

Three hours weekly, throughout the year.

Each student must provide himself with the necessary set of chemical apparatus. This may be secured from the supply department at reduced rates, and, if in good condition at end of the year, may be returned to the College and its value will be refunded. Any College apparatus broken will be charged in full.

EDUCATION.

PROFESSOR SILVER.

1. History of Education in the United States.

An examination of the origins and development of our American school system, covering the fields of elementary, secondary and higher education. Lectures, assigned reading, and reports on assigned topics.

Four hours weekly, first semester.

2. High School Methods.

A study of principles of presentation of materials to students with special reference to the problems and the subjects of the high school program. On one day a week, the special problems of various subjects are presented by instructors in their respective departments of the College.

Text-book, discussions, lectures, assigned reading, a theme.

Four hours weekly, second semester.

3 and 4. The Theory of Education.

A brief survey of the work of some of the most important educational theorists whose work has contributed to the development of our present day American education. The educational theories of the following, among others, will be considered: Comenius,

Locke, Rousseau, Pestalozzi, Froebel, Herbart, Spencer, Hall, Eliot. The latter part of the course will be devoted to constructive work with the aim of establishing a few foundation principles underlying a sound modern educational theory.

Three hours weekly, throughout the year.

ENGLISH.

MISS WARREN.

1 and 2. Rhetoric and Literature.

The first semester is devoted to a study of the forms of composition. Regular theme work is carried on in exposition, argumentation, narration and description.

In the second semester the work in composition is based upon a careful study of masterpieces of representative writers of English poetry.

This work is required of all Freshmen.

Text-books: Baldwin's College Rhetoric, Carpenter and Brewster's Modern English prose.

Three hours weekly, throughout the year.

3 and 4. The Essay. Nineteenth Century Prose.

The study of the essay as found in the works of Macaulay, Carlyle, Arnold, Newman, Emerson, Ruskin, and Stevenson.

Three hours weekly, throughout the year.

5. Tennyson.

A careful study of representative poems. The reading of all the Poetry of Tennyson is required. Open to Juniors and Seniors.

Three hours weekly, first semester.

6. The English Drama.

The history of the English Drama. The study of the laws of the drama. Critical study of the following works of Shakespeare: Macbeth, King Lear, Hamlet, Othello. Rapid reading of Shakespeare's plays. Open to Juniors and Seniors.

Three hours weekly, second semester.

Given in 1909-10.

7. Wordsworth and Shelley.

Careful study of the representative poems of Wordsworth and Shelley. Copious reading from these poets is required. Open to Juniors and Seniors.

Three hours weekly, first semester.

8. Browning.

Intensive study of a number of Browning's poems, reading of 'The Ring and the Book, and much of Browning's dramatic verse. Regular papers are required in this work, based upon the critical and comparative study of the poems.

Three hours weekly, second semester.

Courses 7 and 8 will be given in 1910-11.

FRENCH.

PROFESSOR WIRTZ.

MISS PATTISON.

1 and 2. Beginner's Course.

1. Edgren's French Grammar, Part I; Super's French Reader; Easy French Stories.

Four hours weekly, first semester.

2. Edgren's Grammar, Part II; Halevy's L'Abbe Constantin; George Sands' La Mare au Diable; Merimee's Colombo; Composition.

Four hours weekly, second semester.

In this course the essentials of French grammar are presented as briefly as possible, so that the student may begin the reading of easy French prose almost from the first. A thorough study of the grammar, accompanied by exercises in composition, follows after reading has been begun. Special attention is given to daily drill in pronunciation and to the irregular verbs, but no direct attempt is made to teach French conversation.

3. French Fiction.

Selections are made from the works of Dumas, Merimee, Souvestre, DeVigny, and Daudet.

Three hours weekly, first semester.

4. Modern French Comedies.

Selections from plays by Sandeau, Erckmann-Chatrain, Ohnet, Scribe, Labiche, and Vacquerie.

Three hours weekly, second semester.

5. French Prose.

Selections from Balzac, Lamartine, Chateaubriand, Erckmann-Chartrain, Feuillet, and Saint-Beuve.

Three hours weekly, first semester.

6. French Classics.

Selected works of Moliere, Racine, and Corneille.

Three hours weekly, second semester.

7. Victor Hugo and the Romantic School.

Three hours weekly, first semester.

GEOLOGY.

PROFESSOR CARTER.

1 and 2. General Geology.

1. Dynamic and Structural Geology. The geological forces and the work they accomplish, and a study of the original and secondary structures of rocks.

2. Physiographical and Historical Geology with special reference to the North American continent, and a study of the evolution of land, and of life forms from the oldest geological records down to the present time.

Text-book: Chamberlain and Salisbury.

Three hours weekly, throughout the year.

GERMAN.

PROFESSOR WIRTZ.

1 and 2. Elementary German.

This course includes the essentials of German grammar, the reading of selections in prose and verse, German conversation and composition. It is open only to students who have presented four full credits in foreign languages. No credit will be given unless the whole course is completed.

Five hours weekly, throughout the year.

3 and 4. Intermediate German.

Modern prose writers, Storm, Freytag, Seidel, Ernst, etc.; German lyrics and ballads, Lessing's *Minna von Barnhelm*, Schiller's *Wilhelm Tell*. Open to students who have completed course 1 and 2, or its equivalent.

Four hours weekly, throughout the year.

5 and 6. The Classical Period.

This course will include the critical study of representative works of Lessing, Goethe, and Schiller; lectures, outside readings, and reports. Open to students who have completed courses 1-4, or their equivalents.

Three hours weekly throughout the year.

7 and 8. The 19th Century.

Two courses in the literature of this period will be given in alternate years. The one course will present an outline of German life in the 19th century as reflected in the German novel and short story; the second course will take up the drama of this period exclusive of the works of Goethe and Schiller. Open to students who have completed courses 1-4, or their equivalents.

Three hours weekly, throughout the year.

A Major in German consists of three years' work, not including course 1 and 2.

GREEK.

PROFESSOR HEFFELBOWER.

1 and 2. Beginner's Course for Freshmen.

This course is open to students in this department who come prepared for Freshman work in other departments, but presenting less than thirty acceptable credits, and without preparation in Greek. This work will be counted as a College course for such as present thirty acceptable entrance credits, but does not count toward a Major.

Five hours weekly, throughout the year.

3. Plato.

The Apology, Crito, and parts of the Phaedo will be read, noting chiefly the characteristics of Plato's literary style and the form of the dialogue, but not neglecting the Platonic philosophy. Review of verb inflection; systematic study of syntax.

Four hours weekly, first semester.

4. Homer: The Iliad, Selections.

Study of Homeric forms, syntax, and prosody. Informal lectures on Homeric questions. Homeric archaeology. Comparative notice of other national epics. Greek Mythology.

Four hours weekly, second semester.

5. Historians.

Selections from Herodotus, Thucydides and the Hellenica of Xenophon. A thorough review of Greek history during the fifth century. Assigned readings.

Three hours weekly, first semester.

6. Drama: Tragedy.

Representative plays from the three tragedians will be read with special reference to their literary art. A study of the origin and development of the Greek Drama and Theatre. History of Greek Literature.

Three hours weekly, second semester.

7. Orators.

Attic oratory and Athenian legal antiquities will be studied in Lysias (select orations) and Demosthenes (Olynthiacs and Philippics). Assigned readings.

Three hours weekly, first semester.

8. Drama: Comedy. Elegiac and Melic Poets; Odes of Pindar.

A study of the origin and development of the Greek comedy; its scope and place in Greek Literature. Selections from the principal elegiac and melic odes will be read.

Three hours weekly, second semester.

Courses 7 and 8 are to be given in 1909-10, and to alternate thereafter with courses 5 and 6. Open to students who have completed courses 3 and 4. Courses 3-8 constitute the work required of those who choose Greek as a Major.

9. The New Testament.

A study of the chief peculiarities of the New Testament Greek, with selections from the Gospels and Epistles. Grammatical and dialectic comparison will be made with writers of the best Attic period, and the whole course treated with especial reference to the needs of the student for the ministry. Open to students who have completed 3 and 4.

Two hours weekly, second semester.

10. Lectures on Greek Mythology, Literature and History.

This course is open to all students of the College who have the time and inclination to attend, and seeks to give some acquaintance with the greatest Greek authors in poetry, history, oratory, and philosophy, and some appreciation of the connection of Greek life and thought with the world's culture and history.

Three hours weekly, first semester.

HISTORY.

PROFESSOR SILVER.

1 and 2. History of Western Europe.

A study of the development of the more important European nations as they have emerged from the confusion of the late Roman

FAIRFIELD HALL--SEE PAGE 16

Empire. The effort is made to discover the real significance of the Middle Ages and to trace briefly the course of the more important movements, such as the Renaissance, the Reformation, and the French Revolution. This is an introductory course and is to be taken before other College work in History.

Recitations, lectures, readings, and reports.

Text-books: Robinson's Introduction to the History of Western Europe, and Robinson's Readings in European History.

Required not later than Sophomore year.

Four hours weekly, throughout the year.

3 and 4. History of England.

A study of the political, constitutional and social development of England.

Three hours weekly, throughout the year.

5 and 6. History of the United States.

Colonial History: Discoveries and early settlements; the struggle with France; the Revolution; the confederation; the "critical period."

Thwaites' The Colonies, and Hart's Formation of the Union are studied as a basis for more extended reading.

Three hours weekly, throughout the year.

LATIN.

PROFESSOR JOHNSON.

1. Livy.

Books I, XXI, and XXII are read. Constant practice in sight reading is given. Some attention is given to Livy's style and his place in Latin literature. Purely grammatical questions are made secondary to the acquisition of the power to read Latin rapidly and accurately.

Text-book: Greenough and Peck's Livy (combined edition).

Four hours weekly, first semester.

2. Cicero and Horace.

After a rapid reading of Cicero's De Senectute, the remainder of

the semester is devoted to a careful study of the Satires and Epistles of Horace.

Text-books: Bennett's Cicero, Greenough's Horace.

Four hours weekly, second semester.

3. Horace: Odes and Epodes.

A careful reading and analysis of the principal Odes and Epodes. Occasionally selected Odes will be assigned for a careful translation into metrical English.

Text-book: Smith's Horace (revised edition).

Three hours weekly, first semester.

4. Tacitus and Plautus.

After a rapid reading of Tacitus' Agricola, the remainder of the semester is devoted to the reading of at least two plays of Plautus. The Menaechmi and Captivi are usually read.

Some attention is given to the metres of Plautus and his sources.

Text-books: Hopkins' Tacitus, Fowler's Plautus' Menaechmi.

Three hours weekly, second semester.

5. Studies in Roman Poetry.

The aim of this course will be to acquaint the student with a number of Latin poets in the field of Elegy and Satire.

Text-books: Carter's Roman Elegiac Poets, Wright's Juvenal.

Three hours weekly, first semester.

6. Pliny's Letters.

Pliny's Letters are read for their light upon the Roman life of their time. Pellison's Roman Life in Pliny's Time is used to supplement the reading of the Letters.

Text-book: Westcott's Pliny's Letters.

Three hours weekly, second semester.

N. B. Courses 3, 4, 5, and 6 are open to students who have previously taken courses 1 and 2, or their equivalents.

7. Latin Grammar: Sounds and Inflections.

This course is open only to students who Major in Latin. The

work consists of investigations of assigned topics supplemented by lectures. The ability to read difficult German is a pre-requisite.

Text-book: Bennett's Latin Language.

Three hours weekly, first semester.

8. Latin Grammar: Syntax.

After an outline study of the leading topics of Latin Syntax is presented, questions for more careful study will be assigned to members of the class upon which at stated times reports will be called for. Considerable outside reading will be expected.

Text-book: Bennett's Latin Language.

Three hours weekly, second semester.

MATHEMATICS.

PROFESSOR HODGE.

1. Higher Algebra.

Beginning with a rapid review of radicals and quadratic equations, the work embraces proportion, variation, the progressions, permutations and combinations, indeterminate coefficients, partial fractions, binomial theorem, series, method of differences, logarithms, imaginaries, and a brief course in determinants and the theory of equations. Required of Freshmen.

Text-book: Hawkes' Advanced Algebra.

Four hours weekly, first semester.

2. Plane Trigonometry and Introduction to Analytic Geometry.

The analytical theory of the trigonometric functions, the development of the general formulae, the solution of the triangles and practice in the use of logarithmic tables. In Analytic Geometry the endeavor is to acquaint the student with the general methods by which analysis is applied to geometrical problems. The work includes the construction and discussion of the loci of equations, the geometry of the straight line, the circle, and the conic sections.

About one-half the semester is devoted to Trigonometry, the re-

mainder being given to Analytic Geometry. Required of Freshmen.

Text-books: Granville's Plane Trigonometry and Tables, Ashton's Analytic Geometry.

Four hours weekly, second semester.

3. Differential Calculus.

Numbers, variables and functions, the theory of the limits, general principles and formulae of differentiation, together with numerous applications to geometry and mechanics, successive differentiation, the development of functions in series, maxima and minima. Additional work in Analytic Geometry is given in connection with this course.

Text-book: Granville's Differential and Integral Calculus.

Three hours weekly, first semester.

4. Integral Calculus.

This is a continuation of Course 3. The general principles and formulae of integration are developed and applied to such problems of geometry as the rectification of curves, determination of areas, volumes, etc., centers of gravity, moments of inertia, etc.

Text-book: Granville's Calculus.

Three hours weekly, second semester.

5. Advanced Calculus.

This course treats such topics as partial derivatives, Taylor's Theorem for functions of several variables, singular points, envelopes, involutes and evolutes, etc., definite integrals, improper integrals, line integrals, Green's Theorem, Fourier's Series, etc.

References to Goursat, Williamson, Todhunter and other authors.

Three hours weekly, first semester.

6. Differential Equations.

The endeavor is to make this course practical, rather than theoretical. A large number of examples are solved, and numerous applications are made to problems of physics and mechanics.

Text-book: Murray's Introductory Course in Differential Equations. Reference to Cohen, Johnson and Forsythe.

Three hours weekly, second semester.

7. Theoretical Mechanics.

This course deals with the general principles of dynamics, the laws of motion, statics, the dynamics of a particle and of rigid bodies.

Text-book: Crew's Analytic Mechanics.

Three hours weekly, first semester.

8. Algebraic Analysis.

This course treats the subjects of determinants, the theory of equations and the elements of the theory of functions of a real variable. It is given by lectures and special reports. The attempt is made to introduce the student to a somewhat broad range of mathematical literature. Ability to read German or French is desirable, although not necessary for this course.

Three hours weekly, second semester.

PHILOSOPHY.

PROFESSOR GAGE.

1. Psychology.

An introductory course in general psychology. By means of recitations, discussions, and demonstrations, the fundamental facts and laws of mind are studied.

Selected Texts and Laboratory Manual. Pre-requisite to all courses in philosophy, except 3.

Four hours weekly, first semester.

2. Psychology.

Advanced course. An intensive study of psychological problems, with emphasis on their practical implications. Recitations, discussions, written exercises, and experiments from members of the class.

Three hours weekly, second semester.

3. Logic.

An introductory course in formal and practical logic. Much

attention is given to the detection of fallacies, examples drawn from many sources being used. Skill in the accurate use of terms, and in logical statement is a main object of the course. Recitations and practical work in argumentation and debate by members of the class.

Three hours weekly, first semester.

4. Aesthetics.

Introductory course. A general study of aesthetical appreciation. The course deals with the justification of Art, with definitions of the beautiful, the sublime, the comic, the pathetic, and other aesthetic judgments. A practical application of definitions is made by reference to nature, pictures, and literature.

Recitations, readings and collateral readings.

Three hours weekly, second semester.

5. Philosophy.

A general introduction to philosophy. Intended for students who desire to know the nature of philosophical study, its systematic divisions, and its characteristic problems. A study is made of the various solutions of these problems: agnosticism, materialism, realism, idealism, theism. Recitations, lectures, collateral readings, discussions.

Three hours weekly, first semester.

6. Philosophy of Religion.

The nature of religion and its place in the life of humanity is studied. The world religions are reviewed, and a study of religious experiences is made from the psychological viewpoint. The social and personal implications of the various religions are considered. The psychology of conversion and kindred topics are investigated. Lectures, recitations, and assigned readings.

Three hours weekly, second semester.

7. The Psychology of Conduct.

Introductory course. A general study of conduct from the viewpoint of psychology. Special attention is given to the psychology

of will and feelings, and their relation to action. The aim is essentially practical.

Three hours weekly, first semester.

8. Social and Political Ethics.

A general study of social and political morals, of the rights of freedom and equality, suffrage, property, of the ethics of war and peace, civic duties and party loyalty, and of the ground of social responsibility. In general the course seeks to determine the proper attitude toward one's neighbor.

Lectures and assigned topics for individual study.

Three hours weekly, second semester.

PHYSICS.

PROFESSOR MCKENZIE.

STUDENT ASSISTANT, IVAN L. POLLOCK.

1 and 2. Beginning College Physics.

A course in college physics open to students who wish a more advanced course than the general high school course. This course presents the newer discoveries and applications in physics but does not use the mathematical treatment of the advanced course. It is designed as a general survey of physics for those who do not intend to continue the subject and as preparation for work in advanced physics, in chemistry and biology.

Recitations with lecture-experiments and laboratory work. Open to Freshmen and Sophomores.

This course cannot be counted toward a Major.

Text-book: Millikan and Gale's A First Course in Physics. A laboratory manual will also be used.

Fours hours weekly, throughout the year.

3 and 4. General Physics.

3. Mechanics, Sound, and Heat. The laws of pure motion, of matter in motion and the properties of matter are studied. This is followed by a study of sound and heat. The subject is presented by lectures, following the work of the text book, with experiments illustrating the principles considered, by recitations on the lectures and text-book, and by laboratory work.

Readings on selected topics will be assigned.

Text-book: Ames and Bliss's Manual of Experiments in Physics will be used in the laboratory. The class text will be announced later.

Two class-room and two laboratory periods weekly, first semester.

4. Electricity, Magnetism, and Light. This is a continuation of course 3. Special attention is given to the fundamental laws of Magnetism, and Electricity, and Light, and to their practical applications. A working knowledge of algebra, geometry and trigonometry is required for course 3 and 4.

Text-book: Same is in course 3.

Two recitations and two laboratory periods weekly, second semester.

5 and 6. Practical Electricity.

5. Direct Current Machinery and Application. This course presents an opportunity to work with direct current dynamos and motors, and to study their development, construction and use. The application of direct current to electric arc and incandescent lighting, storage batteries and electro-chemistry.

Recitations, assigned reading and laboratory work.

Text-book: Norris' Practical Electricity, with a laboratory manual.

Three hours weekly, first semester.

6. Alternating Current. During the second semester the development of the use and construction of alternating current machinery and transmission of alternating current will be studied. Included in the subjects studied are single and polyphase alternators, transformers and their development, alternating current series and synchronous motors, single, two- and three-phase induction motors, and the use and transmission of alternating current for power and lighting, D. C. and A. C. motors and their use, etc.

This course is open to students who have completed course 3 and 4. or to students who on consultation with the Head of the Department show that they have had sufficient preparation in general physics.

The electrical equipment includes a power plant, a 2 H. P. gasoline engine driving direct current and single- and double-phase alternating current dynamos, D. C. motors, and A. C. motors, of syn-

chronous, single phase, two- and three-phase induction motors, standard and commercial volt and ammeters for both D. C. and A. C., storage batteries, transformers for single phase, and for changing two- to three-phase current, arc and incandescent lamps of different voltages and of the latest types of metal filaments, and flaming arc, galvanometers, resistance boxes, bridges, etc.

A Major in Physics and Chemistry may be secured by combining Chemistry 1-2, with Physics 3-4 and 5-6.

POLITICAL AND SOCIAL SCIENCE.

PROFESSOR GAGE.

1. Sociology.

This course seeks to review rapidly the history of Sociology and to acquaint the student with the origin, development, and constitution of Society. The social theories of Comte, Mill, Spencer, Schaffle, Tarde, Ward, Giddings, and others are presented to the class by lecture and assigned readings. The latter part of the course is devoted to the study of practical problems, including pauperism, crime, intemperance, the distribution of wealth, and the integrity of the family. The claims of socialism and other remedial measures are carefully studied.

Recitations and reports on assigned topics by members of the class.

Three hours weekly, first semester.

2. Economics.

The aim of this course is to cover the entire field of economics and to study carefully the fundamental principles and problems, with reference to present economic conditions. The development of economic society and the economic development of the United States are first studied. Following this, consumption, production, value and exchange and distribution are studied with reference to the underlying principles and problems which are presented by each topic. It is hoped that the course will give the student a clear idea of rent, interest, capital, labor, wages, and profits. So far as possible the course will conclude with a discussion of public finance, and the relation of the state to Industry and private income to Social welfare.

Three hours weekly, second semester.

The Academy.

Aim.

The special purpose of the Academy is to furnish a thorough preparation to students who wish to take a full collegiate course. To this end the requirements for admission to colleges and universities have been made the basis of the course. At the same time this arrangement gives a practical and thorough high school course to those who do not intend to enter college.

Admission.

Students entering the Academy must be prepared in the Arithmetic, Grammar, Geography, Physiology and United States History usually taught in the grammar grades. Admission to advanced standing may be obtained upon passing satisfactory examinations in the preceding studies of the course, or upon the presentation of credentials showing that the work was thoroughly done elsewhere.

Graduation.

Upon completion of the course of instruction, a certificate of graduation is given. The holder of a certificate is entitled to admission to college.

First year students entering in 1910 will be assigned to the first year of the new course which is found on page 66.

Students who are now enrolled and all others who graduate in 1911 or 1912 will follow the old course found on page 67.

Religious Exercises.

Daily chapel services, at which all the students are required to be present, are held. Attending divine worship at least once on the Sabbath is also obligatory upon all. Students are allowed to attend whatever church they may indicate at the opening of the year as their preference. There are two Christian Associations in the College, of which most of the Academy students are members.

Regulations.

Careful records are kept of the attendance and scholarship of students. If a student falls below grade, he is admonished, and, if after such admonition, his work still continues unsatisfactory, he is dropped to a lower class.

Expenses.

The annual charges for tuition are **thirty dollars**. Of this amount **fifteen** dollars are payable on the opening day of the first semester, and **fifteen** dollars on the opening day of the second semester. An incidental fee of **five** dollars per semester is charged all students.

Departments of Instruction.

ENGLISH.

MISS WARREN.

A and B. Composition. American Literature.

The time is divided between work in elementary composition and work in American Literature. The following masterpieces will be read: The House of Seven Gables, selections from the Sketch Book, the Last of the Mohicans, Snowbound, selections from Longfellow, Franklin's Autobiography, Vision of Sir Launfal.

Text-books: Scott and Denney's Elementary Composition, New-comer's American Literature.

Four hours weekly, throughout the year.

C and D. Composition. English Literature.

Regular work in composition, in narration, description, and exposition. Milton's Minor Poems, Burke's Speech on Conciliation, and Silas Marner are carefully studied.

The following works are required for general reading and work in composition: Ivanhoe, Merchant of Venice, Tennyson's Gareth and Lynette, Launcelot and Elaine, Passing of Arthur, Tale of Two Cities.

Text-book: Gardiner Kittridge and Arnold's Elements of English Composition.

Three hours weekly, throughout the year.

E and F. Composition. English Literature.

History of English Literature. In this course attention will be given to the essay and the oration together with work in composition based upon assigned reading.

The reading and study of the following masterpieces will be required: Sesame and Lilies, Carlyle's Essay on Burns, Macaulay's Life of Johnson, Macbeth, Deserted Village, Sir Roger de Coverley Papers in the Spectator, David Copperfield.

Text-book: Pancoast's Introduction to English Literature.

Two hours weekly, throughout the year.

GERMAN.

PROFESSOR WIRTZ.

A and B. Elementary Course.

A. Thomas's German Grammar, Part I.

Four hours weekly, first semester.

B. Grammar continued; Grimm's Maerchen, Storm's Immensee, Heyse's L'Arrabbiata.

Four hours weekly, second semester.

The object of this course is to give the student a thorough training in the essentials of German accidence and syntax, and to enable him to read easy German prose with expression. It should also give him a correct pronunciation and some skill in simple composition.

C and D. Second Year Course.

C. Baumbach's Frau Holde; Hildren's Hoeher als die Kirche; Freytag's Die Journalisten; Wildenbruch's Der Letzte; Grammar and Composition.

Four hours weekly, first semester.

D. Tales from Hauff; Riehl's Fluch der Schoenheit; Arnold's Fritz auf Ferien; Schiller's Jungfrau von Orleans; Grammar and Composition.

Four hours weekly, second semester.

This course is intended to give the student a large and varied vocabulary, and to develop a feeling for the German idiom. One hour a week is given to grammar and composition.

GREEK.

ACTING PROFESSOR HEFFELBOWER.

A. First Greek Book.

The time is devoted to a thorough drill in pronunciation according to the written accents, to forms, simple constructions, and the acquirement of a vocabulary. Daily practice is given in the oral

and written translations of Greek into English, and of English into Greek.

Text-book: White's First Greek Book.

Five hours weekly, first semester.

B. Anabasis.

Books I and II are read, accompanied by a review of inflections and a systematic study of syntax.

Text-books: Goodwin's Anabasis, and Goodwin's Greek Grammar.

Five hours weekly, second semester.

C. Xenophon: The Anabasis III-IV.

Review of the verb inflection; work formation; a general study of syntax with Greek composition. Xenophon's life, works, and characteristics as a writer. The expedition of Cyrus—its causes and its effects on Greek and Persian policy. The Greek art of war.

Text-book: Goodwin and White's Anabasis.

Four hours weekly, first semester.

D. Xenophon: The Memorabilia I-II, or Hellenica.

The critical and grammatical study begun in the first semester will be continued throughout the year.

Four hours weekly, second semester.

HISTORY.

PROFESSOR SILVER.

A. Ancient History.

A brief review of the eastern nations, followed by a detailed study of the history of the Greeks and Romans.

Text-book: Botsford's Ancient History.

Four hours weekly, first semester.

B. English History.

Text-book: Coman and Kendall's English History.

Four hours weekly, second semester.

LATIN.

PROFESSOR JOHNSON.

ACTING PROFESSOR HEFFELBOWER.

A. Ancient History.

The time is devoted to a thorough drill in the foundations of the Latin language. Careful attention is given to the acquisition of a large vocabulary, and to this end the relation between English and Latin is duly emphasized. Easy selections from Collar's Gradatim are introduced early, in order to lend interest to the work.

Text-books: Bennett's Latin Grammar; Bennett's Lessons; Collar's New Gradatim.

Five hours weekly, first semester.

B. Easy Prose and Caesar's Gallic War.

After a rapid review of Bennett's Lessons, the time will be divided between Collar's Gradatim and one book of the Gallic War.

Text-books: Kelsey's Caesar; D'Ooge's Latin Composition.

Five hours weekly, second semester.

C. Caesar and Ovid.

Books II, III, IV, and VI of the Gallic War are read. Careful attention is given to the review of forms and the mastery of syntactical construction. Selections from the Metamorphoses of Ovid are read, both for their intrinsic value and as an introduction to Latin hexameter poetry.

Text-books: Kelsey's Caesar; D'Ooge's Latin Composition; Gleason's A Term of Ovid.

Five hours weekly, first semester.

D. Cicero's Orations.

Six orations are read. Considerable attention is given to Roman political antiquities. Cicero's influence as an orator and public man are duly emphasized. Outside of frequent exercises in composition, grammatical questions are made subordinate to the reading and interpretation of the orations.

Text-books: Kelsey's Cicero; D'Ooge's Latin Composition (Part II).

Five hour weekly, second semester.

E and F. Vergil's Aeneid.

Six books of the Aeneid are read. Constant practice is given in scanning, through which an attempt is made to appreciate Vergil as poetry.

Text-book: Comstock's Vergil.

Four hours weekly, throughout the year.

MATHEMATICS.

PROFESSOR HODGE.

A and B. Algebra.

Fundamental processes, factoring, fractions, equations, and problems involving one or more unknown quantities, inequalities, imaginary expressions, powers and roots, fractional and negative exponents, reduction and combination of radicals and the solution of radical and quadratic equations.

Text-book: Hedrick's Algebra for Secondary Schools.

Five hours weekly, throughout the year.

C and D. Plane and Solid Geometry.

The ability to reason correctly is cultivated not only by a logical reproduction of the proofs and constructions of the text-books, but also by frequent exercises in the original demonstration of theorems and the solution of numerical problems.

Text-book: Wentworth's Plane and Solid Geometry.

Five hours weekly, throughout the year.

A sub-preparatory class in Arithmetic is formed whenever there is sufficient demand for it.

FOSTER SCIENCE HALL---SEE PAGE 16

SCIENCE.

MR. PICKEN.

MISS DU BOIS.

A and B. Physics.

This course is a combination of recitation and laboratory work, two hours each week being assigned to the former, and one hour to the latter. A laboratory fee of two dollars a semester is charged.

Three hours weekly, throughout the year.

C and D. Physical Geography.

Text-book: Gilbert and Brigham's Introduction to Physical Geography.

Three hours weekly, throughout the year.

Courses of Study.

* NEW COURSE.

FIRST YEAR.

English.
Algebra.
Latin.
Physical Geography.

SECOND YEAR.

English.
Plane Geometry.
Latin.
Ancient History.

THIRD YEAR.

English.
Solid Geometry, Algebra.
Choose two of Latin, Greek, German or Mediaeval and Modern History.

FOURTH YEAR.

Physics.
Latin.
Greek.
German.
English.
U. S. History.

} CHOOSE THREE.

* Students entering the first year in 1910 will follow this course.

CLASSICAL COURSE.

* OLD COURSE.

<i>Greek</i> D—Memorabilia I-II or Hellenica.....	4
<i>Science</i> B—Physics.....	3
<i>English</i> F—History of English Literature. Composition.....	2

 SCIENTIFIC COURSE.

The studies of the First year of this course are identical with those of the corresponding year of the Classical course. In the Second year German A and B takes the place of Greek A and B, and in the Third year German C and D takes the place of Greek C and D.

School of Music.

The work of this department is modeled after that of the New England Conservatory, and the distinguishing characteristics of that great institution are incorporated in its methods of instruction.

Thorough instruction is offered in the following: Piano, Voice Culture and Singing, Violin, Ear Training, Harmony, and the Theory and History of Music.

Piano.

First Grade:—New England Conservatory Course (First Grade). Technical exercises for acquiring correct position of hands and strengthening fingers.

Second Grade:—New England Conservatory Course (Second Grade). Koehler, Twelve Little Studies, Op. 157; Loeschhorn, Melodious Studies, Op. 52, Book I; Koehler, Children's Friend, Op. 243, Books I and II; Loeschhorn, Progressive Studies, Op. 66, Book I; Heller, Studies, Op. 47, Book I; Koehler, Small School of Velocity, Op. 242; Sonatinas by Kuhlau, Kullak, and Clementi.

With this grade begins the study of the scales and chords in the major and minor keys.

Third Grade:—Bertini, Op. 29, Book I; Heller, Op. 45, Book II; Krause, Op. 2, Book I (Trill Studies); Berens, Op. 61, Books I and II (Velocity Studies); Czerny, School of Velocity, Op. 636; Bach, Six Short Preludes and Two-Part Inventions; Loeschhorn, Op. 66, Books II and III.

Practice of scale and chords, together with arpeggios and various finger exercises.

Fourth Grade:—Cramer, Fifty Selected Studies, edited by Von Bulow; Czerny, Op. 740, Books I and II; Bach, Three-Part Inventions; Heller, Op. 45 or 90; Czerny, Octave Studies, Op. 553.

Fifth Grade:—Clementi, Gradus ad Parnassum, edited by Tausig; Kessler, Op. 20, Book I; Bach, Three-Part Inventions; Mosheles,

Op. 70, Books I and II; Low, Octave Studies; Alex. Hollander, Six pieces for left hand, Op. 31.

Sixth Grade:—Chopin, Etudes; Selections from Bach's Well-Tempered Clavichord; Czerny's School of Virtuosity, Op. 365; Kullak, Octave Studies; Liszt, Etudes; Schuman, Op. 13.

Daily technical work is required in all grades, and compositions selected from the best modern writers and from the classics are given throughout the year.

Theory.

One year is required for this work. Elson's Theory is used as a text-book. This is supplemented by lectures on the physical side of music.

Voice Culture.

The work is given in three divisions.

1. Technics, consisting of exercises and syllables that promote the developement and proper use of the muscles of the mouth, throat, and breathing organs.

2. Etudes for the application of the principles learned in Technics.

Pauseron, Panofka, Marchesi, Vaccai.

3. Songs embodying the principles learned in Technics and Etudes. Art study and Dramatic Expression.

Normal Course.

This is a two years' course, required to secure a teacher's certificate from the School of Music. The pupils are divided into classes of three and are instructed in hand culture, notation, ear training and piano by advanced students in the normal course, the entire work being under the immediate supervision of the director of normal work.

Violin.

This course is divided into six grades, commencing with the correct manner of holding the instrument and bow, and the production of a smooth, round, and full tone. Studies in the different kinds of bowing, finger exercises, etc. Composition from the classic and modern composers.

Organ.

This course begins with exercises for pedal technique. Allen's Pedal Studies; Dudley Buck's Studies for Pedal Technique, and Exercises by Widor for Pedals are used. Organ Works by Bach, Mendelssohn and the best of modern composers are studied.

Musical History.

One year is required for the study of musical history. Filmore's History of Music is used as a text. This is supplemented by lectures on various subjects bearing on music and musicians, both past and present.

Harmony.

The study of Harmony is essential to every student of music, and a graded course covering two years is provided. The first year is devoted to Ear Training, and the second to Chadwick's Harmony.

Literary Work.

All courses of the Academy and College are open to students in the School of Music, and work in the departments of French, German, and English is especially advised. Such work gives variety, breadth, and culture to those who choose music as a profession.

Recitals.

Public recitals are given every two weeks. Each student is required to take part, and thus acquire that self control and composure so necessary to a satisfactory performance.

Diplomas.

The student who successfully completes the six grades in either Piano or Voice, together with one year of Ear Training, Harmony, Musical History, and Theory of Music, will be granted a diploma, provided sufficient advancement has been made along literary lines to enable the student to enter the Freshman class of the College.

Choral Societies.

There are under this head two flourishing organizations: the College Chorus under the direction of Mr. Moorhead, and the Thalia

Glee Club under the direction of Miss Glenn. The latter organization, consisting of twenty young ladies, is doing excellent work.

Two concerts are given each year. The College Chorus assists at various public exercises during the college year.

Expenses.

The charges for tuition per term of 12 weeks, two lessons each week, are as follows:

Piano	\$12.00-18.00
Voice Culture	18.00
Violin	18.00
Organ	18.00
Harmony (in class)	12.00
Harmony (in private).....	18.00
Piano rent (one hour daily, per term)	2.00
Ear training (six in class)	8.00
Theory (in class)	12.00
Musical History (per year)	15.00

Tuition payable strictly in advance. No pupil taken for less than a term. No deductions for lessons missed, except in cases of protracted illness.

For further information address the Director of the School of Music.

ALUMNI ASSOCIATION.

OFFICERS FOR 1909-1910.

FRANK FULLER, M. D., '88, Chairman.

MARY B. SNOOK, Secretary and Treasurer.

EXECUTIVE COMMITTEE.

J. W. DOLE, '94,

CORA BALL, '95,

BEATRICE CUNNINGHAM LEGGETT, '85,

MINNIE COREY GAUMER, '97,

AMY JUNKIN HINKHOUSE, '83.

An Appeal.

Parsons College, now in its thirty-sixth year, will graduate its thirtieth class in June. Of the three hundred and sixty-five Alumni a large proportion have gone into altruistic callings and are working for the uplift of the race. The College purposes to be an ally of the forces of righteousness, and it aims to inspire all its students to go out as helpers. Its history has been one of struggle against poverty and it has been hampered in its progress by lack of funds. It seeks to make possible a first-class education for every boy or girl that wants one. Its work must of necessity be largely for youth of small means, hence its receipts from student sources will be meager. It must, therefore, ever depend upon the good will and generosity of those to whom God has entrusted this world's goods.

The great need is for increased endowment that the purpose of the church in establishing this school may be most fully met, for the equipment of the past will not suffice for the present and future. Below are suggestions of needs which friends will appreciate.

1. Funds for the purchase of apparatus for the departments of Chemistry, Physics, Biology, Experimental Psychology, Astronomy and for enlarging the Library and Museum are in much demand.

2. The establishment of Professorships. Twenty-five thousand dollars will do this and place on a permanent basis each department. Such a chair would bear the name of the donor of the endowment and thus become a monument for all time.

3. Contributions from the churches for the current expenses. Here is a way in which all can help that will mean much.

FORM OF BEQUEST.

I give and bequeath to Parsons College, situated in Fairfield, Jefferson County, Iowa, the sum of \$.....

Those who desire information in regard to the College will please address:

President Willis E. Parsons, Fairfield, Iowa, or Rev. J. F. Hinkhouse, D. D., Fairfield, Iowa.

Degrees and Prizes.

DEGREES CONFERRED, 1909.

BACHELOR OF ARTS.

NETTIE NYLE DONOVAN,
MYRTLE LUELLA WHITMER,
ELSIE EUGENIA ZICHY.

BACHELOR OF PHILOSOPHY.

EDITH MARGUERITE FOSTER,
HUBERT ELMER HOWARD,
MARY EFFIE LEE,
EMILY CLARK MILLER.

BACHELOR OF SCIENCE.

BLANCHE ARIZONA COFFMAN,
CLAUDE ELMER DOWNARD,
MARGARET FISHER,
GEORGE OLIVER WIRTZ,
AURELIE EDITH ZICHY.

GRADUATES IN MUSIC.

CLARA INGHAM,
MARIE HAMMON.

Prizes Awarded 1908-1909.

Summer School.

IN THE summer of 1909 the first session of the Parsons College Summer School was held from June 14th to July 3d—three weeks, classes meeting six days a week. The session of 1910 will run from June 13th to July 8th—four weeks.

Classes are maintained in the common branches and in the advanced branches required in the examinations for uniform county teachers' certificates. A special feature of the session is a Model Rural School conducted on the campus for the purpose of affording facilities for observation and practice-teaching under the conditions actually existing in country schools. It is the purpose of the College in conducting the Summer School to offer facilities to teachers both for preparation for examinations and especially for increasing their professional efficiency.

Tuition for the four weeks is \$5.00. The College dormitory is open for the convenience of summer students, the rate for board and room being \$4.00 per week; for table alone \$3.00; single meals 25 cents.
